

# Too Many Irons in the Fire?

...let us help you with one of those irons.

# MOSEER

# REPLACEMENTS

What a year we have had here in the Dakotas.

Rain in abundance, lots of hay and grass - in fact the grass has been so lush that I think it has impacted our heifer weights - maybe 50# less than a year ago BUT the quality and genetics run deep. No sacrifice there!

We moved our AI dates one week later this year so the calving dates show March 7th - but with all these heifers being ready 7-10 days early - the bull bred's will be one cycle behind these. Based on the ultrasound date, a majority of the bull bred's show bred June 16-21 that should put calving March 25-30th, but again with the calving ease bulls I've selected both Red Angus (Bieber) and Black Angus (Tokach). Expect an early arrival!

**MOSEER**

We're offering 280 head of top quality range ready females for you to pick from. 145 Black and Black white faced, 135 red and red white faced, (a big majority are solid red) These heifers were ultrasounded on August 19th to confirm the breeding date. All the information we have on these heifers will be made available to the purchaser. You won't be disappointed in this group of heifers. They will make a good set of mother cows.

We will again be featuring a group of red bred Heifers at the Bieber Fever Red Angus sale on November 14, 2019. The heifers will remain at our ranch in Bismarck but will be on DV Auction during the Bieber sale. The top bidder will be given choice pick. Contact me if you need any help with the DV auction.

Except for the heifers that will be marketed at the Bieber Fever Sale, all heifers will be sold private treaty. Contact Wade or Lynn Moser for more information. [wademoser@bis.midco.net](mailto:wademoser@bis.midco.net) cell: 701.226.4269
