# SET YOUR SIGHTS ON THE BEST

You go home with the heifers that fit your program and not the ones that just happen to go out the gate first!

**WEIGHT RANGE** 900-1,100lbs

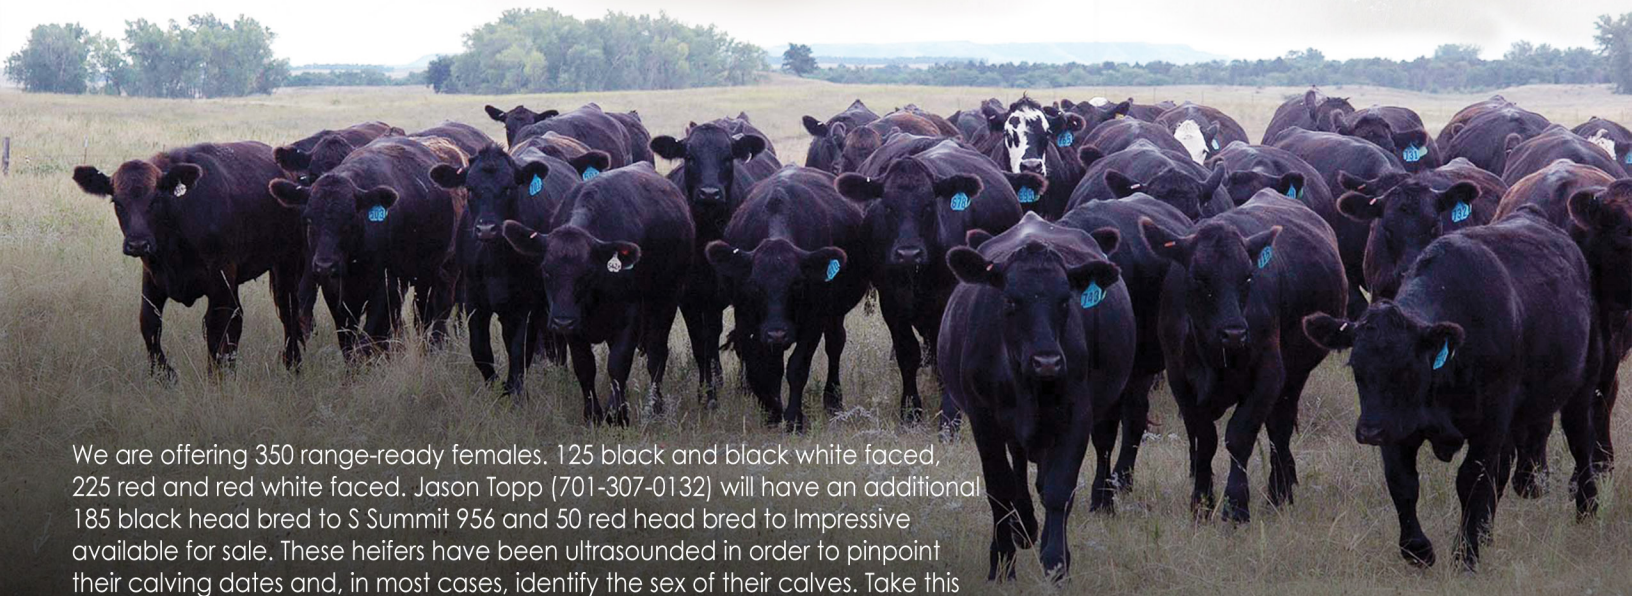

**AI DATES** May 21-27

**PASTURE BRED** May 28 - July 11

**HEALTH PROGRAM** One Shot,  
Cattlemaster, Seven Way, Dectomax,  
Preg Guard Gold, Bangs Vaccinated

**ULTRASOUNDED**

Data will be provided to buyers

We are offering 350 range-ready females. 125 black and black white faced, 225 red and red white faced. Jason Topp (701-307-0132) will have an additional 185 black head bred to S Summit 956 and 50 red head bred to Impressive available for sale. These heifers have been ultrasounded in order to pinpoint their calving dates and, in most cases, identify the sex of their calves. Take this opportunity to shorten your calving season and eliminate the guesswork of the resulting calf crop. All breeding information will be provided for you. This will help in your selection along with having the breeding information during calving so you can concentrate more on those that are due based on the breeding date. These top-quality performance heifers are source-verified, coming from proven programs, and will give you the genetic advantage to raise market-topping calves.

Parts of the country have come through some dry conditions in the past years and now have feed available.

Be ready to **RELOAD** and get quality replacements for your program. Now is not the time to be caught without enough ammunition (cow numbers) to meet the feeder calf demands that are ahead of us.
