

MOSEER REPLACEMENTS

DO THE RIGHT THING

this is OUR job:

Identify the genetics that make a good brood cow.

Develop those identified replacements to reach their genetic potential.

Implement a vaccination program that will allow that potential to be healthy throughout its productive life.

Breed to the best AI sires you can identify that will deliver an unassisted birth then add growth.

Use the best clean up bulls that can be found that can settle those and deliver the unassisted birth and growth your AI do.

Make those replacements grow and gain on a good grass and mineral program.

Ultrasound to guarantee breeding dates, a live calf and in most cases, sex.

Handle these heifers in a way that allows them to be inserted into another program and work well. Calm and productive!

We stand behind our product. Always have, always will.

DO THE RIGHT THING

this is YOUR job:

COME LOOK!

See if these heifers will work in your program.

-We sell choice-

Like what you see or walk away!
(I think you will like what you see)

BISMARCK, ND 58504
 1105 W BURLINGHAM AVE
REPLACEMENTS
MOSER

We're offering 300 head of top quality range ready females for you to pick from. 125 Black and Black white faced, 175 red and red white faced, (a big majority are solid red) These heifers were ultrasounded on August 10th to confirm the breeding date. All the information we have on these heifers will be made available to the purchaser. *You won't be disappointed in this group of heifers. They are long, thick and will make a good set of mother cows.*

We will again be featuring a group of red bred Heifers at the Bieber Fever Red Angus sale on November 8, 2018. The heifers will remain at our ranch in Bismarck but will be on DV Auction during the Bieber sale. The top bidder will be given choice pick. Contact me if you need any help with the DV auction.

Except for the heifers that will be marketed at the Bieber Fever Sale, all heifers will be sold private treaty. Contact Wade or Lynn Moser for more information.
